SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Python
- MySql
- Tools : Git/Github , Docker (Basic)
- Unity / Unreal Engine
- Project Management
- MERN Stack
- Flutter / React Native

LANGUAGES

- English
- Tamil

PROFILE

Detail-oriented software developer with hands-on experience in web development, mobile application development, and Unity-based VR projects. Skilled in building user-focused applications using modern technologies and frameworks. Continuously learning and adapting to new tools and concepts, with a strong interest in developing efficient and scalable solutions.

EDUCATION

M.Sc Software Systems — 2023 - Present
Kongu Engineering College | Perundurai , Tamil Nadu
GPA: 8.21

HSC — 2021 - 2023
Chanakya Hi-Tech Matric Hr Sec School
Score: 82 %

SSLC — 2020 - 2021
Vivekananda Matric Hr Sec School

PROJECTS

Automated Receipt Data Extraction System (Snap2Bill)
Developed a React Native app that automates expense tracking by integrating OCR APIs to parse receipt images. Implemented logic to convert unstructured data into structured financial records for user analytics.
Technologies Used: *React Native (EXPO) , Tesseract OCR, MySQL*

Real-Time Learning Platform (Interactive Skill EnhancerVR)
Engineered a VR platform capturing real-time metrics to drive adaptive content for special needs students using backend analytics algorithms.
Technologies Used: *C#, Unity,Firebase ,Flutter*

Smart Health Vault - Digital Healthcare Management Platform
Developed a healthcare app for secure storage and management of medical records using React Native and Firebase, enabling real-time access and efficient data handling.
Technologies Used: *React Native (Expo), React.js, Firebase*

ACHIEVEMENTS & HACKATHONS

Finalist, Smart India Hackathon (SIH) 2024: Developed an Interactive Skill Enhancer platform in a high-pressure coding environment.

Winner, POC Competition (2025): Developed 'Interactive Skill Enhancer', a VR platform for ASD & ID learning that utilizes real-time analytics to track student progress.

Hackwave (2024): Secured 1st place (out of 30+ teams) for designing the webage for hostel management.
